DETAILED ACTION

Priority

This application claims benefit for domestic priority under 35 U.S.C. § 119(e) (to a provisional application 60/417,735 10/09/2002), is acknowledged.

Status of Claims

Claims 1-17 are currently pending in the application.

Receipt is acknowledged of Applicant's response filed on September 24, 2004 and that has been entered.

Information Disclosure Statement

Receipt is acknowledged of Information Disclosure Statement (IDS), filed on 06/14/2004, which has been entered in the file.

Response to Election/Restriction

In response to the restriction requirement, Applicants have elected Group I, which includes claims 1-10 and 17 drawn to a compound and composition with an election of species, found in Example 40 on page 124 of the specification with traverse is acknowledged.

The traversal is on the ground(s) that the claims of Group II should be rejoined and examined with the elected Group I because the search and examination of all claims in Group I and II can be made without a "serious burden" on the Examiner. Applicant's arguments (including election of species requirements) are fully considered and found persuasive (because those claims commensurate within the scope of elected invention) and Examiner agrees to withdraw restriction and election of species requirements between Groups I and II and therefore, all grounds of traversal are rendered moot in view of current Office action.

Reasons for allowance

The following is an Examiner's statement of reasons for allowance:

Hutchinson *et al* (US 6,124,334) teach the hetero-aromatic ring substituted phenyloxazolidinone compounds, and their methods of uses thereof. The instant compounds differ from the prior art by having a core phenyl ring, which is further substituted directly or indirectly by different variables such as A (5-membered heterocyclic oxazole or furan ring), X, Y, and Z etc. The prior art compounds neither teach nor render obvious the instant claimed compounds or their method of uses as described in this application and there is no suggestion or motivation to modify the compounds of other prior art to obtain the instant compounds. Therefore the instant claims 1-17 are allowable over the prior art of record.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Golam Shameem, Ph.D. whose telephone number is (571) 272-0706. The examiner can normally be reached on Monday-Thursday from 6:30 AM - 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph McKane, can be reached at (571) 272-0699.
